

The logo for 'Fun with Chemistry Day Camp' features the words 'Fun with' in a black, rounded font. Below it, 'CHEMISTRY' is written in large, colorful, bubbly letters with a dotted pattern: 'C' is green, 'H' is blue, 'E' is green, 'M' is blue, 'I' is blue, 'S' is blue, 'T' is blue, 'R' is purple, and 'Y' is purple. At the bottom, 'DAY CAMP' is written in white, bold, sans-serif letters on a black, slanted banner. The background is a vibrant orange and yellow explosion with scattered stars and dots in green, blue, and purple.

Fun with CHEMISTRY DAY CAMP

Fun with Chemistry will be hosting three one-day camps this summer for students entering grades 4-8 for the 2017-2018 school year. All three sessions will be located on the UT Campus and will run from 9 AM to 4 PM (6/19, 8/2, and 8/3). In each session, your student will focus on the theme of Combustion with a particular emphasis on the energy released from combustion reactions. These reactions can occur inside a car engine, the human body, or even a hydrogen balloon! Additionally, your student will participate in several hands-on STEM experiments, interact with highly-esteemed chemistry professors, enjoy a luncheon with undergraduate and graduate students, and finish by assisting Dr. Kate Biberdorf with an explosive Chemistry Circus! It's a day of STEM that your students do not want to miss!
